ENGINEERING AMERICA: THE RISE OF THE AMERICAN PROFESSIONAL CLASS, 1838-1920

Westphalia Press, United States, 2014. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.In a single lifespan in the late nineteenth and early twentieth century, America passed through an extraordinary economic and social transformation. Industrialization, urbanization, immigration, and westward expansion into the vast interior of the continent yielded the structural framework of the modern America we still recognize more than a century later. The roles played by financial capital, labor,...
