This book may be worth purchasing. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

SUBJECT AS APORIA IN EARLY MODERN ART (HARDBACK)

Taylor Francis Ltd, United Kingdom, 2010. Hardback. Book Condition: New. New ed.. 240 x 178 mm. Language: English . Brand New Book. The studies in this volume focus on works of art that generate bafflement, and that make that difficulty of reading part of their rhetorical structure. These are works whose subjects are not easily identifiable or can be readily associated with more than one subject at the same time; works that take a subject into a new genre or format (pagan into Christian, for example, or vice versa), and thus destabilize the subject itself; works that concentrate on the marginal rather than the central episode; and works that introduce elements of the preparatory phase-the indeterminacy that are native to the sketch or drawing, for example-into the realm of finished works. Unable to settle on a single reading, the effort of interpretation doubles back on its own procedures. This aporia, according to Aristotle, serves as the initial impulse to philosophical inquiry. Although the works studied here are in many ways exceptional, the aporias they raise register larger structural problems belonging to the artistic culture as a whole. Between 1400 and 1700, we see the emergence of new formats, new genres, new subjects, and new techniques, as well as new venues for the display of art. It is an implicit thesis of this book that the systemic shifts occurring in the early modern period made the emergence of aporetic works of art, and of aporia as a problem for art, a structural inevitability.
